READY REFERENCE QUESTIONS PART 3:

Ready Reference Question Brief Answer	Non-Print #1 or Print Source indicated on the RRQ sheet	Other Authoritative Resource (institutions, assoc., library sites)	My Preference Evaluative comments (compare/contrast)
1. <i>Q</i> : Tell me the difference between "libel" and "slander". <i>A</i> : Libel is a written defamatory statement, whereas slander is a spoken defamatory statement.	Wex (https://www.law.c ornell.edu/wex/defa mation) Creator/Maintainer: Legal Information Institute at Cornell Law School	StatPearls from the National Library of Medicine (https://www.ncbi.n lm.nih.gov/books/N BK531472/) Creator(s)/Maintain er(s): Yasmyne Ronquillo and Matthew Varacallo (last updated: January 25, 2023)	Both sources provided me with the answer, but between the two sources, I would say that I preferred to use Wex since it is a law dictionary and encyclopedia, so it is a source more related to the topic of the question. Wex was also easier to find and navigate since it had a search bar that allowed me to search for terms. The other source was also reliable, but it was from a medical library and was harder to find and use. I found this by performing a filtered search (AND and
2. <i>Q</i> : What was the principle involved in Brown vs. the Board of Education?	National Archives (https://www.archiv es.gov/milestone- documents/brown- v-board-of- education)	United States Courts (https://www.uscou rts.gov/educational- resources/education al-activities/history-	site:.gov) using a search browser. Both sources were created by government agencies, so they are reliable. Between the two

			easier to navigate since it had a search bar. Although, once I found the Copyright Law online, I simply had to click the Section about fair use from the links provided on the side of the page, so it was quite easy to navigate as well.
6.			
8. Q: What trademarks does General Mills hold? A: Lucky Charms, Cinnamon Toast Crunch, Cocoa Puffs, Trix	Trademark Electronic Search System (TESS) (https://tmsearch.us pto.gov/bin/showfie ld) Creator/Maintainer: United States Patent and Trademark Office (last updated: March 25, 2023)	Gerben Trademark Library (https://www.gerbe nlaw.com/trademar ks/food- companies/general- mills/) Creator/Maintainer: Gerben Perrott PLLC, a trademark, patent, and copyright law firm (last updated: March 25, 2023)	Both sources were recently updated and from reliable authors, but I would say I preferred to use the Gerben Trademark Library for this question. I prefer Gerben because the website is easier to navigate. Once you got to Gerben's Trademark Library website, you scrolled to the "Food Companies" section, selected "General Mills," and then you were given a list of the company's trademarks. TESS had a search bar that was helpful, but it had you select the type of search to use first, which may be confusing for some people.

Also, TESS only allowed you to see 50 results at one time and had you click through multiple pages to see all of the results, which some people may find inconvenient. Both sources were written or checked by medical professionals on
written or checked by medical
websites that are involved in the medical field, so I would say they are both reliable. Both sources split up their articles with headers that help with locating the desired information to answer this question. Between the two sources, I preferred StatPearl's article for this question because it was more recently updated, which is important with medical sources, and it provided the reader with more in-depth information on the disorder, which

INF 6120 Access to In	101111411011		
15. <i>Q</i> : What is the food pyramid? <i>A</i> : It was a graphic representation of how many servings to eat from different food groups. It was replaced with "MyPlate" in 2011.	eMedicinehealth (https://www.emedi cinehealth.com/wha t_is_the_food_pyra mid_now/article_e m.htm) Creator/Maintainer: Dr. John P. Cunha	KidsHealth (https://kidshealth.o rg/en/parents/mypla te.html?ref=search) Creator/Maintainer: Mary L. Gavin, MD	a patron that is interested in learning about this disorder and its treatments. Between the two sources, I preferred eMedicinehealth because it provided me with information on what the food pyramid was and about how it was updated to "MyPlate" The
Both representations help promote a healthy, balanced eating routine.			"MyPlate." The other source is what appeared after a search of "food pyramid" on KidsHealth; it only explained the new graphic representation and its purpose. Both sources were created and reviewed by doctors, so I believe they were both reliable.
16. <i>Q</i> : How many calories are there in an olive? <i>A</i> : About 5-6 calories	Healthline (https://www.health line.com/nutrition/f oods/olives#nutrien ts)	Cleveland Clinic: Health Essentials (https://health.cleve landclinic.org/are- olives-good-for- you/)	I found similar answers from these sources; I answered with an estimate because of the slight difference in
Carones	Creator/Maintainer: Adda Bjarnadottir, MS, RDN (Ice) and Kathy W. Warwick, R.D., CDE, Nutrition (last updated: February 13, 2023)	Creator/Maintainer: Cleveland Clinic No specific names listed (published on January 3, 2023)	answers provided by the sources. Between the two sources, I preferred Healthline because the nutrition facts section was clearly labeled, so the

INF 6120 Access to II	itormation	T	1
17			answer was easier to locate on the page, whereas the nutrition facts in the Cleveland Clinic article were harder to locate and required closer reading. I also like how the Healthline article provided actual author names and was medically reviewed by real medical professionals.
17. 18. Q: What is a "Letter of Marque"? A: A license giving authority to a private citizen allowing the citizen to engage in reprisals against citizens or vessels of another nation.	Wex (https://www.law.c ornell.edu/wex/lette r_of_marque) Creator/Maintainer: Legal Information Institute at Cornell Law School	Black's Law Dictionary (https://thelawdictio nary.org/marque- and-reprisal-letters- of/) Creator/Maintainer: The Law Dictionary (TLD) No specific names are provided.	Both sources provided me with similar answers. Between the two sources, I preferred to use Wex because the definition was easier to understand and recently updated, and the creator/maintainer is clear and appears to be more reliable. Black's Law Dictionary provided a good definition, but not much is provided surrounding who creates or maintains web pages on the site. Also, The Law Dictionary's "About Us" page states that they have digitalized Black's Law Dictionary, 2nd Edition, which was

INF 6120 Access to In	Hormanon		
19. 20. Q: Can you	National Archives	Federal Depository	published in 1910, which may have been reliable at the time of its publication, but now it is quite outdated. Both sources are
give me a complete list of presidential libraries?	(https://www.archiv es.gov/presidential- libraries/visit)	Library Program: LibGuides (https://libguides.fd	reliable and provide a list of presidential libraries. FDPL's
A: Herbert Hoover Presidential Library, Franklin D. Roosevelt Presidential Library, Harry S. Truman Presidential Library	Creator/Maintainer: The U.S. National Archives and Records Administration (last reviewed: September 11, 2017)	lp.gov/presidential-documents/presidential-libraries-museums-monuments-and-historic-sites) Creator/Maintainer: Federal Depository Library Program, part of the Government Publishing Office (last updated: January 28, 2023)	LibGuides webpage was recently updated, but the list of libraries is just one of the lists available on the page and only links to each library's website. I would say that I prefer the National Archives source since it provides links to each library's website and other information about the libraries, like their address and available services. The National Archives also provides a way for a person to contact each individual library. The information given in the National Archives source is more plentiful and user-focused.
21. <i>Q</i> : What is CPI (Consumer Price	Bureau of Labor Statistics:	Investopedia.com	Both sources provided me with

			presidents. The

INF 6120 Access to In	formation		
27.			United States Senate source was also more informative. It provided information about the bills, like their number, subject, veto date, presidential message, and most importantly, status. The status column was where I discovered if the bills were sustained.
28. Q: Which are the fastest growing occupations? A: Nurse practitioners, Wind turbine service technicians, usher, lobby attendants, and ticket takers	Occupational Outlook Handbook (https://www.bls.go v/ooh/fastest- growing.htm) Creator/Maintainer: U.S. Bureau of Labor Statistics (last updated: September 8, 2022)	Statista (https://www.statist a.com/statistics/218 258/top-30- occupations-with- the-fastest- projected- employment- growth-in-the-us/) Creator/Maintainer: Statista Research Department (published on October 12, 2022)	Both sources are from reliable authors and were recently published in the past year. I preferred to use the Occupational Outlook Handbook for this question because it provided a longer list of occupations (20 occupations to Statista's list of 15 occupations). Also, I preferred this source because it included extra information that might be of interest to someone asking this question, such as the growth rate percentage and the median pay for each occupation. Statista requires

INF 6120 Access to In	itormation		
29.			you to make an account to access any more information on this topic, which may be inconvenient to some people.
